

About

AVOX is ultra thin surface mounted landing operator panel series which is most popular and well-known in our product range. No visible bolts or screws due to smart snap fit design in the front panel. LED & TFT indicators with AVOX buttons are used in 9.9 mm slimcase which has tapered down to sides to even make a thinner look.

AVOX serial CANBUS prewired landing operator panels are developed for fast and easy installation. Supports plug & play type connection with wide range of well-known elevator controllers via CANBUS. Thus eliminates the wiring labor in a 9.9 mm slimcase. Serial AVOX LOPs have variable indicators such as 7 Segment & LED matrix and color TFT.

Features

- Surface mounted, no screws for cover installation
- 9.9 mm ultra thin slim casing
- EN81-70 and EN81-28 compliant
- Decorative finishes available
- CANBUS serial prewired type connection
